

County Player Development Programme Guidance 2023-23

Purpose of the programme: Learn, Love, Win

Supporting athletes to Learn the game, Love the journey, Win deep - for further details click [here](#)

County Netball Associations manage and deliver the Development Programme(s) on behalf of England Netball

Outcome of the programme:

The U13 Player Development Programme is the first entrance into the player pathway and the focus is on individual development. The emphasis is on athletes learning how to train with decision making being a pivotal element, alongside developing resilience and skills required to play netball. Learning the game as well as loving the game with a sense of working together is essential to enhance their experiences at this early stage.

In the U15 Player Development Programme, the emphasis remains on understanding learning how to train and compete with competition being used to consolidate game understanding, refining skills, and see improvements in decision making.
